Policy 0400

Comprehensive Plans

The Solano County Office of Education (SCOE) believes that careful planning is essential to effective implementation of SCOE programs and policies. Comprehensive plans shall identify cohesive strategies for program improvements and provide stability in SCOE operations. SCOE may have comprehensive plans in areas such as disaster preparedness, Special Education Local Plan Area (SELPA), communication, technology, and facilities that may be contained in this document or as separate documents.

The County Superintendent (Superintendent) or designee shall develop comprehensive plans for the implementation of SCOE's vision, mission, and goals, on specific policy topics, and on other areas as required by law. As appropriate, comprehensive plans may describe, but not be limited to, anticipated short- and long-term needs, measurable outcomes, priorities, activities, available resources, timelines, staff responsibilities, and strategies for internal and external communications regarding the plan.

Committees may be appointed to assist in the development of plans. Comprehensive plans shall be available to the public and shall be reviewed at regular intervals as specified within the plan.

In addition, school-level plans may be developed to meet the unique circumstances of individual school sites provided that they are consistent with law, SCOE's vision, mission, goals, policies, administrative regulations, and countywide or district-wide plans. School plans are subject to review and approval of the Superintendent or designee and/or the County Board.
