Dear Trustees:

In order to comply with the Williams Lawsuit Settlement, current law (Section 1240 of California Education Code) requires the County Superintendent, or his/her designee, to report on schools ranked in deciles 1-3 on the 2012 Academic Performance Index (API).

The purpose of the report as specified in California Education Code (EC) Section 1240 is to describe the State of the Schools related to:

1. students having access to “sufficient instructional materials in four core subject areas (English/Language Arts, Mathematics, History/Social Science, Science) and as appropriate, science laboratory equipment, Foreign Languages, and Health”;
2. compliance with facilities maintenance to determine the condition of a facility that “poses an emergency or urgent threat to the health or safety of pupils or staff”; and
3. the school providing accurate data for the annual School Accountability Report Card (SARC) related to instructional materials and facilities maintenance.

The law further requires that the County Superintendent annually monitor and review:

1. teacher misassignments in deciles 1-3 schools; and
2. quarterly reports on complaints filed with the school district concerning insufficient instructional materials, teacher vacancies and misassignment, and emergency or urgent facilities issues under the Uniform Complaint Procedure.

In addition, the County Superintendent, or his/her designee, is required to determine the condition of school facilities.

Basic terms defined:

- “Sufficient instructional materials” means every pupil, including English Language Learners, has a textbook in the four core areas to use in class and to take home each night to complete required homework assignments.
- “Facilities standards” means that each school district who receives State funding for facilities is required to establish a facilities inspection program and to ensure that each of the schools is maintained in good repair.
- “Good repair” is defined as maintaining schools that are clean, safe, and functional.

The findings are based on an audit of 25% of classrooms in each of the schools visited as well as other facilities as outlined in the Facility Inspection Tool (FIT) including, but not limited to, multi-purpose rooms, restrooms, and playground/school grounds.

Findings:

Chart B – County Wide Results – shows accumulated data by district for all of the four districts in the six areas we monitored. This data is a compilation of all of the Williams Schools in the county.

Charts C, D, E and F are the results for each district.

In conclusion, the Solano County Office of Education is available to support any actions that need to be taken to address the needs identified in the report.

Sincerely,

Victor Romualdi
Associate Superintendent, Student Programs and Educational Services
