The Solano County Office of Education (SCOE) and all of its previously closed sites, due to the Atlas fire in Solano, Napa, and Sonoma Counties and poor air quality, will resume normal business operations on Monday, October 16, 2017.

“Everyone’s safety and wellbeing is our top priority. We will continue to provide our staff and community with updates from Solano County's various public agencies once they become available. Our public service agencies have done a phenomenal job keeping us informed and safe,” says Solano County Superintendent of Schools Lisette Estrella-Henderson.
