2021-2022 School Accountability Report Card

(Published During the 2022-2023 School Year)

General Information about the School Accountability Report Card (SARC)

SARC Overview

By February 1 of each year, every school in California is required by state law to publish a School Accountability Report Card (SARC). The SARC contains information about the condition and performance of each California public school. Under the Local Control Funding Formula (LCFF) all local educational agencies (LEAs) are required to prepare a Local Control and Accountability Plan (LCAP), which describes how they intend to meet annual school-specific goals for all pupils, with specific activities to address state and local priorities. Additionally, data reported in an LCAP is to be consistent with data reported in the SARC.

For more information about SARC requirements and access to prior year reports, see the California Department of Education (CDE) SARC web page at <https://www.cde.ca.gov/ta/ac/sa/>

For more information about the LCFF or the LCAP, see the CDE LCFF web page at <https://www.cde.ca.gov/fg/aa/lc/>

For additional information about the school, parents/guardians and community members should contact the school principal or the district office.

DataQuest

DataQuest is an online data tool located on the CDE DataQuest web page at <https://dq.cde.ca.gov/dataquest/> that contains additional information about this school and comparisons of the school to the district and the county. Specifically, DataQuest is a dynamic system that provides reports for accountability (e.g., test data, enrollment, high school graduates, dropouts, course enrollments, staffing, and data regarding English learners).

California School Dashboard

The California School Dashboard (Dashboard) <https://www.caschooldashboard.org/> reflects California's new accountability and continuous improvement system and provides information about how LEAs and schools are meeting the needs of California's diverse student population. The Dashboard contains reports that display the performance of LEAs, schools, and student groups on a set of state and local measures to assist in identifying strengths, challenges, and areas in need of improvement.

Internet Access

Internet access is available at public libraries and other locations that are publicly accessible (e.g., the California State Library). Access to the Internet at libraries and public locations is generally provided on a first-come, first-served basis. Other use restrictions may include the hours of operation, the length of time that a workstation may be used (depending on availability), the types of software programs available on a workstation, and the ability to print documents.

2022-23 School Overview

VISION STATEMENT: Solano County Office of Education (SCOE) is a professional teaching and learning community that works to implement effective instructional strategies that will enable every student to be successful. SCOE believes every student can become successful 21st-century critical thinkers and learners who have the potential to graduate from high school, go to college and/or trade school, while being positive contributing citizens to our community.

MISSION STATEMENT : The Solano County Juvenile Court and Community School provides every student an equal opportunity to an enriched education where they are challenged to meet and exceed their individual potential in a safe, supportive and structured environment.

PROGRAM OVERVIEW : The goal for the Golden Hills Community School Program is to provide a standards-based academic program for students who have been expelled from their resident districts, may be currently on probation, or they may be referred as a behavioral challenge. The school primarily serves students who reside in the Fairfield-Suisun Unified School District and Vacaville Unified School District boundaries. Golden Hills Community School is committed to assisting students with achieving academic success along with participating in the Positive Behavior Management System (PBIS). Our students work on a standards-based curriculum and have the opportunity to recover missed credits. The program is designed to support progress toward graduation and offers diplomas for students who complete the school's requirements. Golden Hills Community School's academic program has been recognized by the Western Association of Schools and Colleges (WASC). Students who complete their high school graduation requirements through coursework are issued a high school diploma.

The Solano County Office of Education Golden Hill's Distance Learning Program is open to eligible students from the county's six school districts who have not been successful in their district's alternative school settings. Students may be referred to the program by their district's Student Services Department. This program is designed to allow students access to the Learning Lab daily, with a minimum requirement of meeting with the teacher once a week. Each student is required to complete a minimum of 20 hours per week of on-line school work. We encourage students to exceed this amount of time so that more credits can be earned. This is a program built on self-motivation and individual success. Therefore, parental support is critical to support student learning.

Please note: The methodology for SARC data population, specifically related to the Teacher Preparation and Placement section, has shifted this year. As a result the data is displayed differently than in previous years.

A. Conditions of Learning **State Priority: Basic**

The SARC provides the following information relevant to the State priority: Basic (Priority 1):

- Degree to which teachers are appropriately assigned and fully credentialed in the subject area and for the pupils they are teaching;
- Pupils have access to standards-aligned instructional materials; and
- School facilities are maintained in good repair

School Facility Conditions and Planned Improvements

The Solano County Office of Education (SCOE) provides instructional services in a wide variety of school settings. Golden Hills Community School operates one classroom, a learning center, and makerspace in Building 7a, and one Distance Learning Program classroom in Building 6. The Golden Hills Community School facilities are maintained by the SCOE Maintenance Department. The facilities are maintained in a safe condition and there are procedures in place to quickly address health and safety issues once they have been identified. Classrooms are cleaned daily after the students leave at 1:30 p.m.

All Interim Evaluation Instruments for Golden Hills Community School facilities are on file in the Facilities Department. Please contact the Manager of Facilities & Maintenance at (707) 399-4864 for questions.

State Priority: Pupil Achievement

The SARC provides the following information relevant to the State priority: Pupil Achievement (Priority 4):

Statewide Assessments

(i.e., California Assessment of Student Performance and Progress [CAASPP] System includes the Smarter Balanced Summative Assessments for students in the general education population and the California Alternate Assessments [CAAs] for English language arts/literacy [ELA] and mathematics given in grades three through eight and grade eleven. Only eligible students may participate in the administration of the CAAs. CAAs items are aligned with alternate achievement standards, which are linked with the Common Core State Standards [CCSS] for students with the most significant cognitive disabilities).

The CAASPP System encompasses the following assessments and student participation requirements:

1. **Smarter Balanced Summative Assessments and CAAs for ELA** in grades three through eight and grade eleven.
2. **Smarter Balanced Summative Assessments and CAAs for mathematics** in grades three through eight and grade eleven.
3. **California Science Test (CAST) and CAAs for Science** in grades five, eight, and once in high school (i.e., grade ten, eleven, or twelve).
4. **College and Career Ready**
The percentage of students who have successfully completed courses that satisfy the requirements for entrance to the University of California and the California State University, or career technical education sequences or programs of study.

SARC Reporting in the 2020-2021 School Year Only

Where the most viable option, LEAs were required to administer the statewide summative assessment in ELA and mathematics. Where a statewide summative assessment was not the most viable option for the LEA (or for one or more grade-level[s] within the LEA) due to the pandemic, LEAs were allowed to report results from a different assessment that met the criteria established by the State Board of Education (SBE) on March 16, 2021. The assessments were required to be:

- Aligned with CA CCSS for ELA and mathematics;
- Available to students in grades 3 through 8, and grade 11; and
- Uniformly administered across a grade, grade span, school, or district to all eligible students.

Options

Note that the CAAs could only be administered in-person following health and safety requirements. If it was not viable for the LEA to administer the CAAs in person with health and safety guidelines in place, the LEA was directed to not administer the tests. There were no other assessment options available for the CAAs. Schools administered the Smarter Balanced Summative Assessments for ELA and mathematics, other assessments that meet the SBE criteria, or a combination of both, and they could only choose one of the following:

- Smarter Balanced ELA and mathematics summative assessments;
- Other assessments meeting the SBE criteria; or
- Combination of Smarter Balanced ELA and mathematics summative assessments and other assessments.

The percentage of students who have successfully completed courses that satisfy the requirements for entrance to the University of California and the California State University, or career technical education sequences or programs of study.

Percentage of Students Meeting or Exceeding the State Standard on CAASPP

This table displays CAASPP test results in ELA and mathematics for all students grades three through eight and grade eleven taking and completing a state-administered assessment.

The 2020-21 data cells have N/A values because these data are not comparable to other year data due to the COVID-19 pandemic during the 2020-21 school year. Where the CAASPP assessments in ELA and/or mathematics is not the most viable option, the LEAs were allowed to administer local assessments. Therefore, the 2020-21 data between school years for the school, district, state are not an accurate comparison. As such, it is inappropriate to compare results of the 2020-21 school year to other school years.

Percentages are not calculated when the number of students tested is ten or less, either because the number of students in this category is too small for statistical accuracy or to protect student privacy.

ELA and mathematics test results include the Smarter Balanced Summative Assessment and the CAA. The “Percent Met or Exceeded” is calculated by taking the total number of students who met or exceeded the standard on the Smarter Balanced Summative Assessment plus the total number of students who met the standard (i.e., achieved Level 3-Alternate) on the CAAs divided by the total number of students who participated in both assessments.

Subject	School 2020-21	School 2021-22	District 2020-21	District 2021-22	State 2020-21	State 2021-22
English Language Arts/Literacy (grades 3-8 and 11)	N/A	10	N/A	12	N/A	47
Mathematics (grades 3-8 and 11)	N/A	0	N/A	7	N/A	33

2021-22 CAASPP Test Results in ELA by Student Group

This table displays CAASPP test results in ELA by student group for students grades three through eight and grade eleven taking and completing a state-administered assessment.

ELA test results include the Smarter Balanced Summative Assessment and the CAA. The “Percent Met or Exceeded” is calculated by taking the total number of students who met or exceeded the standard on the Smarter Balanced Summative Assessment plus the total number of students who met the standard (i.e., achieved Level 3-Alternate) on the CAAs divided by the total number of students who participated in both assessments.

Double dashes (--) appear in the table when the number of students is ten or less, either because the number of students in this category is too small for statistical accuracy or to protect student privacy.

The number of students tested includes all students who participated in the test whether they received a score or not; however, the number of students tested is not the number that was used to calculate the achievement level percentages. The achievement level percentages are calculated using only students who received scores.

2021-22 CAASPP Test Results in Math by Student Group

This table displays CAASPP test results in Math by student group for students grades three through eight and grade eleven taking and completing a state-administered assessment.

Mathematics test results include the Smarter Balanced Summative Assessment and the CAA. The “Percent Met or Exceeded” is calculated by taking the total number of students who met or exceeded the standard on the Smarter Balanced Summative Assessment plus the total number of students who met the standard (i.e., achieved Level 3-Alternate) on the CAAs divided by the total number of students who participated in both assessments.

Double dashes (--) appear in the table when the number of students is ten or less, either because the number of students in this category is too small for statistical accuracy or to protect student privacy.

2021-22 Career Technical Education Programs

Golden Hills Community School provides students with access to CTE instruction in a state of art classroom. Students receive instruction focused on the construction trades. Students engage with instructional modules that are focused on: plumbing, electrical, woodworking, drywall, and carpentry. Students are involved in real-world learning experiences that prepare them for entry into post-secondary programs and the workforce. Community school students were provided access to instruction that focused on career skills such as job skills, resume writing, and interview techniques. These skills were facilitated by a vocational specialist from SCOE's College and Career Readiness Department. The SCOE Vocational Specialist presented information in the general education classroom. Many SCOE students take advantage of this class which has helped past students get quality jobs in the community. In addition, students were given the opportunity to receive their SERVSAFE Food Handler's Certification.

C. Engagement

State Priority: Parental Involvement

The SARC provides the following information relevant to the State priority: Parental Involvement (Priority 3): Efforts the school district makes to seek parent input in making decisions regarding the school district and at each school site.

2022-23 Opportunities for Parental Involvement

Golden Hills Community School encourages and supports parental involvement through parent advisory committee meetings and the School Site Council (SSC). The SSC which is composed of teachers, students, parents, and community members implements, monitors, and evaluates the effectiveness of the instructional program.. Parental feedback and recommendations are also utilized to compose the School Plan for Student Achievement (SPSA) which serves as the blueprint for both classroom instruction and support resources for students and their families and the use of Title I funding. Family Welcome Meetings are held throughout the school year for new and returning families. Parents participate in an orientation meeting that includes students, teachers, site administration and support staff members. Parents receive detailed information about their opportunities to partner with the school community and access transition services. Parents are invited to meet with the Student Support Specialist in order to implement a transition plan for students who are preparing to return to their school districts of residence. Transition services support parents and students with accessing resources provided by the receiving school district and community. SCOE also provides multiple opportunities for the parents to offer input in the development of the Local Control Accountability Plan (LCAP) throughout the school year.

The parent and family engagement policy was developed jointly with, and agreed on with parents and students at the school. The contact person for parent who would like to get involved is the Director of Educational Options, Dr. Valerie Garrett, at vgarrett@solanocoe.net or (707) 399-4840.

C. Engagement

State Priority: Pupil Engagement

The SARC provides the following information relevant to the State priority: Pupil Engagement (Priority 5):

State Priority: School Climate

The SARC provides the following information relevant to the State priority: School Climate (Priority 6):

- Pupil suspension rates;
- Pupil expulsion rates; and
- Other local measures on the sense of safety

Suspensions and Expulsions

This table displays suspensions and expulsions data collected between July through February, partial school year due to the COVID-19 pandemic. The 2019-20 suspensions and expulsions rate data are not comparable to other year data because the 2019-20 school year is a partial school year due to the COVID-19 crisis. As such, it would be inappropriate to make any comparisons in rates of suspensions and expulsions in the 2019-20 school year compared to other school years.

Subject	School 2019-20	District 2019-20	State 2019-20
Suspensions	14.29	2.51	2.45
Expulsions	0.95	0.08	0.05

This table displays suspensions and expulsions data collected between July through June, each full school year respectively. Data collected during the 2020-21 school year may not be comparable to earlier years of this collection due to differences in learning mode instruction in response to the COVID-19 pandemic.

2022-23 School Safety Plan

It is the policy of the Solano County Office of Education (SCOE) that all students enrolled in this county office of education, and all employees employed by this county office of education, have the right to attend campuses, which are safe and secure. SCOE believes that a beginning step toward safer schools is the development of a comprehensive plan for school safety by every school within the county. The SCOE intends that parents, students, teachers, administrators, classified personnel, and community agencies develop safe school plans, including local law enforcement. The school site committee reviews these safe school plans on an annual basis and proposed changes are submitted to the Site Administrators' Committee for approval. The elements of the plan include disaster response, supervision, and expulsion policies, sexual harassment, safe and orderly entry, and departure. This plan is district rules and procedures on school discipline and crime reporting. A site safety committee meets quarterly to discuss pertinent issues. The site safety plan is also discussed each year at a departmental staff meeting held at the beginning of the year. The 2022-2023 plan was updated September 2022 and discussed at the November 2022 School Site Council meeting, it will be open for public comment in December 2022 before finalizing and submitting by February 2023. Per AB 1747, the school safety plan will be reviewed by law enforcement, fire department, and other first responder entities, as appropriate.

2021-22 Types of Services Funded

Golden Hills Community School provides social-emotional support for all students through access to mental health screening and access to counseling when appropriate. A full service Wellness Center is also available to students in order to further support their social-emotional well-being. Students with disabilities receive access to a Resource Specialist who assists them with the identified goals and services contained in their IEPs. Students are also able to access College and Career Readiness instruction as well as accumulating community service hours. All of these services ensure that students have equitable access to the academic program and available support services.

Professional Development

All teachers attend professional learning sessions throughout the school year. This past year, the focus has been on standards-based instructional practices and the continued implementation of Universal Design for Learning (UDL) strategies. Renaissance Learning professional learning sessions focused on Star Math and Star Reading assessments assisted teachers with preparing students for the Smarter Balanced Assessment Consortium (SBAC) testing.. Professional learning sessions with Renaissance Learning coaches have also supported teachers with their continued use of the various reports that are available to them to analyze and monitor student growth in Math and ELA. The county office staff members from Educational Services, Student Programs, and other departments provide support for these trainings through in-house presenters. Professional learning sessions take place on Wednesdays after the students are dismissed from campus. The staff has received approximately ten dedicated professional learning days for curriculum and instructional practices training. Staff has also attended trainings on the Next Generation Science Standards (NGSS), Edgenuity online learning portal, Study Sync, and classroom management strategies embedded within Positive Behavior Implementation Systems (PBIS).

Additional professional learning areas include integrating Google Apps in the classroom and improving math instruction through rigorous math instruction, social emotional learning, growth mindset, and cultural competence. Universal Design for Learning (UDL) and Study Synch professional learning sessions and coaching will continue to be provided to support equitable access to learning for all students.

This table displays the number of school days dedicated to staff development and continuous improvement.
